

New York 26 July 2021

**To: His Excellency Mr. Nicolas de Rivière  
President of the United Nations Security Council  
Permanent Representative of France to the United Nations**

**Cc: All Permanent Missions to the United Nations in New York**

**Subject: Call for France to End its Conflict of Interest in Peacekeeping Operations in African Countries + Haiti, and Cease its Permanent Membership in the Security Council**

Your Excellency,

France fought in both World War I and II and colonized 24 Countries, Cities, States and Islands in the Americas, 20 Countries in Africa, 9 Countries and Islands in the Indian Ocean, 9 Countries, Territories and Islands in Asia, 8 Islands in Oceania, and 5 Lands in Antarctica and which -together with many Islands around the world- remain French Territories until today.

Most Countries and Islands that are former French Colonies continue to belong to France indirectly, because Nobody knows what category of agreement was reached between the Colonial Power France and each of its Colonized Nations before France withdrew as a Colonizer Nation.

The fact that France has been Permanent Member in the UN Security Council since 1945 and has been Heading the UN Peacekeeping Operations since 1997, does not only raise concern about UN Dictatorship System to have an Invader Superpower Nation decide peace and security for Invaded Third World Nations, but also puts a question mark on France's Conflict of Interest in peacekeeping missions run in African Countries and Haiti, specifically that Haiti has been the First Black-led Republic and First Independent Caribbean State that does Not deserve Chaos.

The Instability, Poverty, Violence, Corruption and Crimes increasing despite Waste of Billions of Dollars in African Nations + Haiti where France heads UN Peacekeeping Operations, is an Alarm to the World to Wake Up to the Reality that France needs to Change its Position and Divert its Direction so that the International Community could take a more Overt approach with real and reliable peace and security task force instead of natural and mineral resources' profit elite.

As a matter of fact, France has been -for decades- blocking chances for international peace and its dishonesty impedes global security, causing irreparable harm to both Africa and Europe.

Every Country that has been under French Rule now has a Corrupt System, including the French-Speaking Canada, Switzerland and Belgium. Wherever corruption flows, France goes!

Your Excellency,

France, receiving Bribes from Morocco in order to Manipulate Western Sahara Conflict, Endangered the lives of many around the world, including Myself being a UN Female Employee.

Morocco is Not Only a Colonial Power in Western Sahara, it is the Occupier of my Land the Former International Zone of Tangier that was a Member in the League of Nations and the then United Nations before Morocco took independence; it is also the Occupier of the Former Rif Republic and the Former Emirate of Tazerwalt where Morocco Steals Gold from Atlas Mountains leaving Sous Inhabitants: Berbers among the poorest and the most ignorant humans in this planet. How Morocco extracts Gold from Sous Region, is Hair-Raising! By Kidnapping and Killing Kids!

## *Save the World*

Moroccan Uncontrolled Atrocity has been extended to Spanish Territories as Mohamed Six who should only govern Rabat and Casablanca -if not Nothing after Liberating the Four [4] Nations he Colonizes- has No limits; and he thinks he is the King of both Africa and Europe, because he has France to defend him in the Security Council; a fact that is No secret but a Delict.

France, taking Bribes from Morocco, put My Life in Danger, caused me Pain and Ruined my life as Morocco Threatened Me for torture or death or both when I served the United Nations as an International Staff Member. The first reason of Moroccan Threat to Me is that I served in Peacekeeping Operations in East Timor which Morocco considers an Enemy because it Supports Western Sahara; and the second reason is because I have been the Only One National of Tangier and Woman to Serve in United Nations while I had the privilege to Discover the Corruption of Morocco that Occupies my Free Land Tangier and Persecutes Us: Tangerine Citizens. To protect myself, I had to apply for Political Asylum in the United States while being a UN Staff Member.

Morocco did Not end there, it Bribed Benjamin Gordon Robert Swanson who Unlawfully Abolished my Post of Assistant to Director of Investigations where Moroccan Soldiers have been investigated for raping and impregnating minor girls in UN peacekeeping missions and Moroccan Permanent Representative Omar Hilale was investigated for bribing UN Officials in OHCHR in order to maneuver Western Sahara Issue to benefit Morocco, since Morocco is able to bribe a dog to bark Sahara is Moroccan so that it keeps thieving its Phosphate; Swanson is now Promoted to ASG OIOS by Guterres whom you Re-elected -by Acclamation- with No vote for a second term.

To destroy my UN long-term career, Morocco Bribed Peter Dennis Read Smith who then Illegally Spied on me in my Office of Counter-Terrorism and Terminated my contract, then Fled to Hungary where Guterres approved a New UN OCT Office for him to run as a Solo UN Staff.

Does France -with its Democratic Government- realize the worldwide disaster and risk it generates while French People need its attention now more than ever during current critical times when Extremism is on the rise and Terrorists -including Moroccans- adopted France as their safe Heaven Nation to launch Attacks against Christianity and Civilization? I believe now it is time for France to look after France and French Citizens; otherwise it might end up being Al-Qa'ida's, Taliban's, GICM's, ISIS', Boko Haram's, Hamas' or Hezbollah's European Capital in the future.

Your Excellency,

For the Security Council to function, at least France and the United Kingdom which are World's Biggest Colonial Powers need to withdraw as Permanent Members and should take care of their internal affairs to maintain peace and security at home instead of prolonging world wars.

New and Modern Nations such as Australia, New Zealand, Singapore and Scandinavian Countries are far away from accepting bribes and are much more advanced in detecting drug, sex and human trafficking, terrorism, pedophilia and threats; and therefore deserve to take the lead in steering the security council in order to build peace and institute security around the globe, taking into account that these states have their own wealth and will unlikely be interested in benefiting from mineral resources in devastated states where citizens are starving for basic needs to survive.

France won't accomplish peace and establish security in the world. A French Philosopher, Michaël Föessel, said that French Republicanism was being Challenged precisely because it has Failed to integrate children of immigrants and because -in the name of unity- it has increasingly called for more uniformity. France, while going through an Identity Crisis, its Secularism is being used as a Key Weapon for Destabilization as Fundamentalists find a gap to gain access to power.
